

# TEMO COAL PROJECT

**Client:** Community Investment Holdings (CIH)

**Site/Location:** Waterberg, Limpopo

**Project Period:** June 2010 – October 2010

## Project Description:

RSV ENCO was appointed to undertake a conceptual study to facilitate the mining rights application and a number of environmental studies. The conceptual study will form the base for the Mining Rights Application and will potentially lead into a pre-feasibility and feasibility study on the project area.

## The Project Includes:

- The undertaking of a conceptual study to determine the economic viability of the resource in the Waterberg Coal Field
- Identifying sources of bulk water and power
- Developing a high level mining plan
- Optimising the resource in terms of suitable sales products
- Planning the supporting infrastructure and
- Undertaking a logistics study in terms of product dispatch
